Profile

I'm a diligent and professional developer very eager to learn and work in a new and good environment.

I'm very creative as I often come up with new ideas that can benefit the company.

I can work in a group as well as by myself as I've experienced both in the course of my previous experiences.

I take well complaints or constructive criticism as I'm always looking forward to better myself.

Experience

Software and Web Developer, TSVI s.r.l.; Vicenza, Italy – 08/08/2017 – 28/02/2019

- Develop (from scratch) and maintain **3 e-commerce websites**
- Maintain and add new functionalities to the company **custom built ERP software**
- **Web-app development** for various customers (banks and other IT companies)
- Create and maintain **web-based utilities** for the company (a GDPR documentation filler, a MailChimp clone, etc...)

Key Achievements

- I created from scratch (using PHP and JS/HTML) a **MailChimp clone**, capable of creating and sending newsletter emails for free, avoiding the spam folder of the recipient.
- Created an **e-commerce website from scratch** (using PHP and UIKit framework), capable of exporting and importing products (~100.000) from the company's database automatically. The product's price changed based on the logged in user (5 different price listings).
- Created and maintained **2 e-commerce websites** using WordPress and WooCommerce
- Developed a **Windows app (.NET) for tablet** capable of recording the barcode of scanned products. It was later used in a hardware store.
- I developed a **web-app for a bank**. It allowed users to invest money and see how much they gained or lost.
- I developed **survey web-pages** for the company's support website.

IT Technician (Internship), Generali Insurance Italy; Vicenza, Italy – 2016–2016

- Checked filled-in insurance forms for errors and made copies of them
- Developed a web-based document archive for the staff

Education

I.T.I.S.: “V. E. Marzotto” – Level 4 EQF - A Level GCE, 15/09/2012 – 09/06/2017
CISCO CCNA Routing & Switching – Certification, 16/11/2016

Skills

- **PHP, MySQL, MSSQL**, HTML5, CSS3, JavaScript, C++, Java, **C# (.NET)**
- **Amazon API**, UIKit Framework, PayPal API, **WordPress API**, PHPMyAdmin
- WordPress, **Visual Studio**, Eclipse IDE, Microsoft Office suite, LibreOffice suite, Linux /Windows / MacOS, Apple Pages, iMovie
- Disassembling and building PCs
- Problem solving (hardware and software related problems)

- **Italian** (*Native Speaker*)
- **English** (*Fluent – C1+ Cert. Cambridge English ESOL*)

Interests

In my spare time I practice Shodō, otherwise known as the art of Japanese calligraphy. I also enjoy working on personal projects (programming related) which allows me to learn new things and programming techniques, reading, playing the keyboard (I'm not that great) and doing amateur astronomy.
